Jittery ™

JitteryGit is a company that is passionate about kids and about creating new and innovative ways for them to learn and explore.

With every new JitteryGit toy that your child opens, they are opening a new world of excitement and creativity. Here at JitteryGit our focus is on finding the perfect unity of fun and education. Our toys are designed by combining STEM, story-telling, and hands-on dynamic fun and learning.

We believe that the best way for kids to learn is to have fun while they are learning!

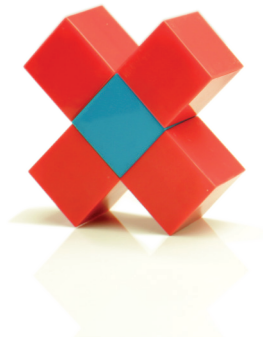

JitteryGit is family owned and operated, and we are based in Miami, FL. We strive to conduct all of our business with integrity and excellence. We know how important your children are, that is why we take great pride in our products.

Our mission has always been to provide high quality toys for kids that are affordable for parents, because every child deserves the opportunity to enjoy learning!

Our priority is to see our customers satisfied. We want every family that buys one of our JitteryGit products to be 100% happy. If for any reason you are not entirely satisfied with your purchase, simply contact us at - support@jitterygitkids.com, and we will gladly refund or replace it for you within 30 days of purchase.

Thank you for believing in our company and for supporting this mission.

Let the fun begin!

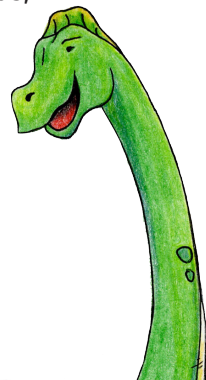

DinoBlox is designed to stimulate your child's learning and problem-solving skills all while having fun. With DinoBlox your child will explore key concepts like color-schemes, counting, creating, imagination, and so much more!

We will explore educational facts about each of the four dinosaurs that DinoBlox is centered around: a Microraptor, a Pentaceratops, a Tyrannosaurus, and a Brachiosaurus. Let's get started with hours of fun!

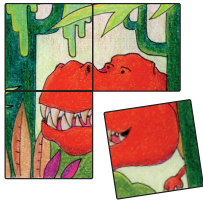

DINOBOX IS A 3-IN-1 ONE GAME SET

Blocks

DinoBlox can be used as a set of magnetic blocks for children to unleash hours of imagination, abstract thinking, and motor skills.

3D Puzzles

DinoBlox can be used as a set of 16 separate puzzles, all of which will teach your child a specific lesson about one of our four dinosaurs.

Counting Cubes

With the two remaining sides of the cubes, you and your child can work on math and counting. Your child will work on essential math skills like single counting, skip counting, grouping, addition, and subtraction.

SETUP INSTRUCTIONS FOR 3D PUZZLE:

**** Initial setup requires adult help and supervision.**

1. There are four puzzles for each dinosaur – 16 puzzles in total!
2. The puzzles are separated into four categories, each category is differentiated by a unique icon:

Habitat: Dotted Arcs	
Size: Infinity loops	
Diet: Squiggly Line	
Survival Features: Triangles..	

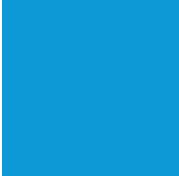

3. The puzzles are further separated by color, each dinosaur is assigned a color:

Misty Mircroraptor: **YELLOW**

Petros Pentaceratops: **BLUE**

TREX Terry: **RED**

Brooke the Brachiosaurus: **GREEN**

- 
4. Separate puzzle sheets
 5. Carefully stick each sticker on the face of each individual cube. Make sure you follow the guidelines in step 2 and 3.
 6. In this booklet, you will find a set of comic strips. There is a comic strip for each Dinosaur. This is meant to accompany your child's learning experience with the 3D puzzle. You can read one comic square to your child, allow them to look at the picture, and then proceed to complete the corresponding puzzle.

**** When you finish you will have** four faces with puzzles, and two blank faces of the cubes. Once the puzzle sheets are properly applied, you can separate the cubes and mix them up. Now the game is ready for your child!

MISTY THE MICRORAPTOR

This sneaky Dino is hiding way above the ground. But if you lift up your eyes, you'll catch Misty Microraptor hiding way up on top of the trees. This Dino lives high up in the air! Perched on the highest branches, Misty Microraptor is always on the lookout, trying to find a delicious meal.

Misty is a carnivore, which means she likes to eat meat. Her favorite food is fish or even small birds or other small animals that look like possums! A lot of people say that this Dino looks like a bird, but she's even cooler! Misty Microraptor has four wings, instead of two! And she has sharp claws, which make her an excellent climber. She climbs trees and easily glides and leaps between branches.

COOL FACT:

Misty may have been the smallest Dino, so you could probably hold this Dino in your hands!

MISTY WAKES UP EARLY AND
GLARES DOWN ON THE REST
OF THE WORLD ...

EVEN THOUGH SHE'S SMALL, HER SPIRIT IS BIG

BUT SHE GETS GRUMPY IF SHE DOESN'T EAT

MISTY SOARS HIGH ABOVE THE REST
OF THE WORLD

CATCH HER IF
YOU CAN!

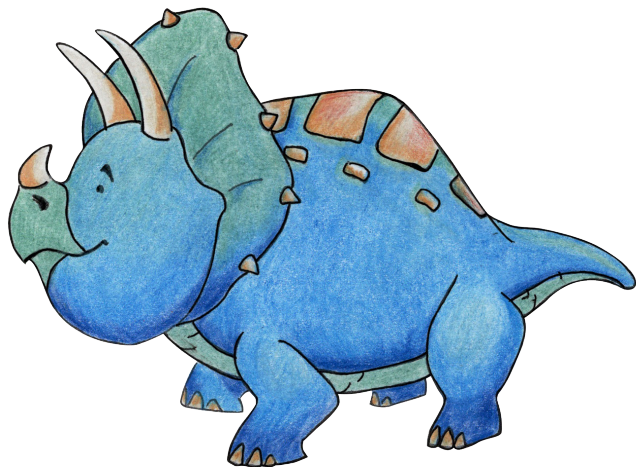

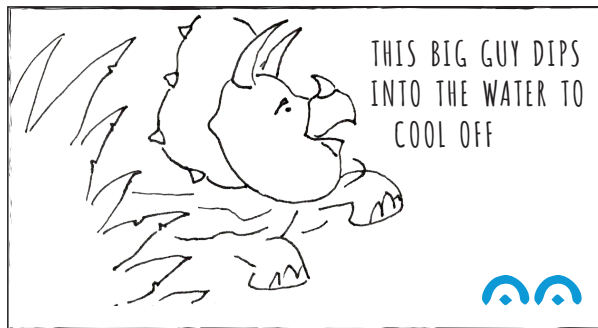

PETROS THE PENTACERATOPS

Petros Pentaceratops is a big Dino with a BIG HEAD!!!

As a matter of fact, his head is the main attraction! On his head he has five horns, all of different sizes, and around his head there is a frill, which is like a huge circle surrounding his face. There are short spikes sticking out of his frill and he uses them to show off.

Are you ready for a nice swim? Petros lives near the water and he loves to swim! We all get hungry after a good swim, and so does Petros. What does this Dino snack on? Well, Petros is a herbivore, which means he only likes to eat plants! He uses his horns and large head to get his hands on some delicious leaves, shrubs, and other nearby greens.

TREX (TYRANNOSAURUS) TERRY

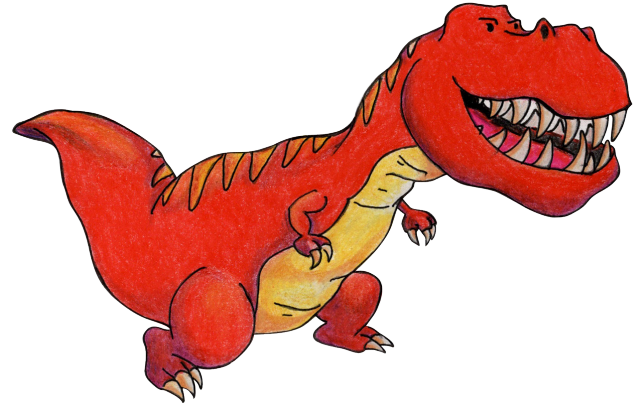

He lives in the humid open forest, near rivers and swamps. He is famous and well-known! TREX Terry is a Giant Dino who rules the land. He is the king!

He is so big that his teeth are the size of bananas. But don't let that fool you, his teeth are not soft and smushy like a banana, they are so sharp that they can easily tear through anything that gets caught in his path! TREX Terry has a jaw so strong that he snaps entire animals in half.

Speaking of other animals, Terry is a carnivore, which means he loves to eat meat and survives off of eating even other big dinosaurs. His sharp teeth, his strong jaw, and his giant muscular body make him a force to be reckoned with!

DID YOU KNOW?

"Rex" literally means king! And his name fits him well because he is a fierce Dino, all the other Dinos fear him.

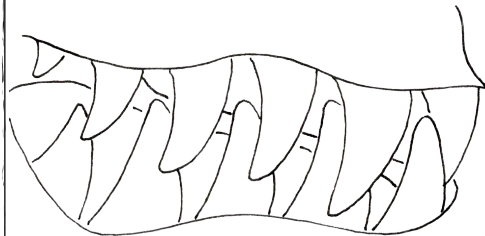

"BEWARE OF TERRY"

HE LURKS IN
THE FOREST,
ENTER IF
YOU DARE!

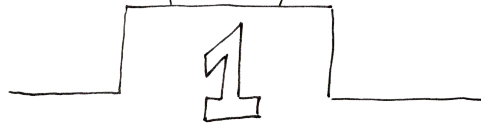

HUGE TEETH, SHARP BITE ...

DON'T GET TRAPPED IN HIS SNARE!

EVERY ONE HIDES
WHEN TERRY GETS
HUNGRY ...

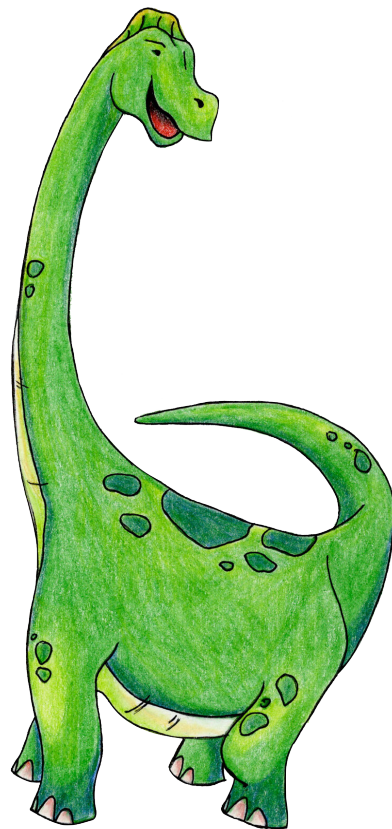

NO ONE IS STRONGER THAN TERRY ...
KING OF THE COUNTRY.

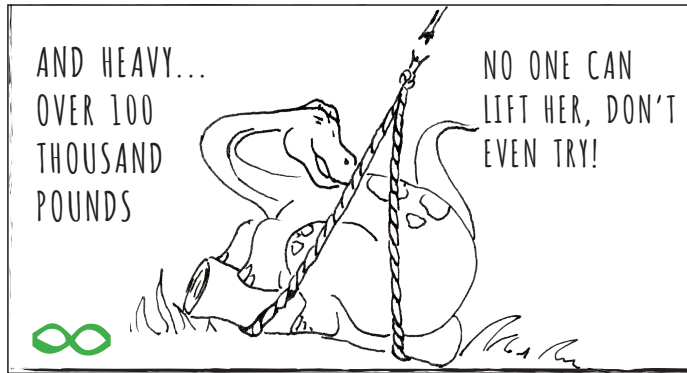

BROOKE THE BRACHIOSAURUS

What's bigger than a giant? Brooke the Brachiosaurus! She is a gigantic Dino that weighs more than 12 elephants combined! She is massive! Her neck is so long that it reaches the highest trees in the forest.

Brooke the Brachiosaurus has two huge legs in the front, that are bigger than her two back legs and this helps her to reach even higher. Brooke is a gentle giant because she is a herbivore, which means she likes to eat only plants.

What gives Brooke the Brachiosaurus the advantage over other plant-eaters is that she can reach plants that none of the other Dinosaurs can! This means she gets more food. Because she loves plants, she lives in the forest, and if you pay careful attention, you just might see her head sticking out of the top of the tallest trees!
